All GCC Students	39.3%	39.0%	41.9%	43.6%	42.9%	

Tables are shaded in relation to the most recent year's total average (in bold). The **darkest orange** shows 5% or more below the current average, the **darkest blue** shows 5% or more above the current average. The arrow indicates the general direction of the five year trend as does the sparkline on the far right.

Retained: Students who are still enrolled for any credit courses at the end of the semester

Next Spring Persistence: Students who re-enroll for credit courses the subsequent spring semester. Students who graduate before spring are removed from the calculation.

Next Fall Persistence: Students who re-enroll for credit courses the subsequent fall semester. Students who graduate before the next fall are removed from the calculation.

The darkest orange shows 5% or more below the current average, the darkest blue shows 5% or more above the current average. The arrow indicates the general direction of the five year trend as does the sparkline on the far right.

Retained: Students who are still enrolled for any credit courses at the end of the semester

Next Spring Persistence: Students who re-enroll for credit courses the subsequent spring semester. Students who graduate before spring are removed from the calculation.

Next Fall Persistence: Students who re-enroll for credit courses the subsequent fall semester. Students who graduate before the next fall are removed from the calculation.
