COURSE DESCRIPTION

Examination of the Constitution of the State of Arizona. Equivalent to the second part of POS220. May not enroll in POS220 and POS221 concurrently. Prerequisites: None.

This 6-week course will explore the government of Arizona, including local governments, using the state constitution as the focal point. We will examine the structure and politics of the formal institutions of government, as well as the role of local governments, interest groups and citizens in Arizona’s political process. State and local governments are too frequently neglected in our federal system of government, yet it is the state government that makes most of the laws that directly effect citizens in the U.S. For the citizen or the political science student, an understanding of State and local government is crucial to understanding the American system of government.

From time to time, revisions may be made to the course requirements specified in the syllabus. It is the responsibility of students who miss class sessions to find out whatever changes have been made. I will be using Blackboard, and will attempt to post all changes to the blackboard site.

REQUIRED TEXTS

Secretary of State, Arizona Constitution (2001 ed.)

BLACKBOARD:

The course will use blackboard for assignments and updates. To get your login password and for information on how to use blackboard use the following website.

http://www.maricopa.edu/blackboard/help.html

Assignments will be submitted on Blackboard as well. Use this site to learn how to submit assignments.

ATTENDANCE:

This is a very short course, and attendance will be crucial to success. If you need to miss a class, notify the instructor of the circumstances by e-mail and check Blackboard for any changes or assignments. You may be dropped from the class if you miss more than 3 hours of class time.

Just as attendance is important, so is being here on time. Announcements are frequently made at the beginning of a class period. If you are late it is your responsibility to get the announcements. I will also post any announcements on the Blackboard site. If you have a schedule that will make promptness an issue, you should talk to me so that we can assess the situation.

ASSIGNMENTS & LATE WORK

• The primary assignment in this course is to keep up with the reading. In order to master the material quickly you should take notes on the Study Guide provided. The Study Guide will assist you in getting the most from your reading, and can be used on open note quizzes as well as for class discussions and activities. These will be also be used by me to make quizzes and tests. Preparedness and participation will impact your grade.
• All work in this class is individual. Evidence of systematic use of another’s work will result in a 0 on the work, which cannot be made up. *Rules of plagiarism and individual work do apply on work. Do you own work in your own words.*

• You should plan on spending about three hours a week outside of class. Because this class is on a very shortened schedule, attendance and timely work submissions are extra important. (Due dates for all assignments are indicated on the calendar below.) Late work: unless you have a compelling excuse, the work must be submitted within one week of the due date and a 20% late penalty will be imposed. Please keep electronic or paper copies of all your work until the end of the semester as insurance against loss by you or me.

• Some assignments are optional. This means that you may do them for credit and they will reduce the weight of the required activities. If you choose not to do them, they will NOT impact your grade. You will be excused from the optional activities.

• Horizon Reports: The outside assignments are the Horizon news reports. These require you to watch the Horizon program, broadcast at 7:00 p.m. weekdays (You may also download the transcripts instead.) These will be due three times during the class. They must be typed and submitted on Blackboard. Instructions and forms can be found under Assignments on Blackboard.

**EXAMS**

• There will be 4 quizzes and a final exam. Quizzes will be open note, but not open book and the exam will consist of short answer or multiple-choice questions, and will be closely tied to the text and class work. I am hoping that we will have two guest speakers, and quizzes and exams will cover their presentations as well as other class discussions. For those reasons, class attendance will be very important.

• The open note quizzes cannot be made up. Instead you will receive the percentage on the quiz that you receive on the final.

• Although you are encouraged to assist each other in understanding the material, all work in this class is individual effort, including homework and exams. In the case of cheating, both parties will receive no credit for the work.

• Plagiarism will be handled in accordance with the handbook. See GCC Student Handbook ([www.gc.maricopa.edu/studenthandbook/](http://www.gc.maricopa.edu/studenthandbook/)) for your rights and responsibilities as a student at GCC.

**EXTRA CREDIT**

Extra credit opportunities will be provided. Check Blackboard for extra credit and optional opportunities. One optional assignment can be turned in per class meeting any time up to, but not including, the last regular class meeting. This is a good way to get more out of the class and do some extra learning on your own, but remember you may only turn in one per week until the last week of regular class. No late work, or extra credit will be accepted during the last class.

**Taping/Special needs**

Taping of lectures and class discussions is not permitted without permission. If you have any special circumstances that require accommodation, contact the Disability and Services Office (523) 845-3080 so that arrangements can be made to assist you, and let me know of the issues as well.

**GRADES**

Your final grade will be based on the following point system:

Three Newsmaker reports: 25 pts. = 75

Final exam = 100 points total

Quizzes: 4 X 20 = 80

Extra credit = up to 25 points

Optional assignments to be determined: 25-50 pts points

The final grade will be assigned on a scale of: A = 90%; B = 80%; C = 70%; D = 60%; F = below 60%

**ISSUES**
If you believe that an error has been made, or if you need to discuss a policy in the class, make an appointment with me and we can talk. I try to be reasonable. Don't let a problem fester or cause stress. Most issues can be resolved if we talk.
CLASS SCHEDULE (Tentative)

You will notice that each week has textbook chapters assigned with Talking Points. Talking Points are the overall discussion questions we will address in class. You should be ready to discuss them during class, but written work s not required.

The following reading assignments should be completed by the date indicated below. Read the textbook assignments carefully and complete the Study Guide questions in preparation for the quizzes. Be ready to discuss the Talking points for each class. Be sure to read the assigned portions of the Arizona Constitution.

Although class discussion may be affected by the availability of guest speakers, The quizzes and horizon assignments will remain unchanged.
