

**Fall 2002 and Spring 2003 Maricopa Community College District
Courses That Can Be Used to Satisfy MCCCD AGEC-A, AGEC-B and/or AGEC-S**

(The MCCCD Curriculum Office maintains this document on a semester basis. Fall 2002 updates will be identified with an * and a note after the course.)

AGEC is a 35-semester credit general education program of study that fulfills lower division general education requirements for students planning to transfer to any Arizona public community college or university. There are three types of MCCCD AGECS. They are the AGECA, AGECS, and the AGECS. They are the AGECA, AGECS, and the AGECS. Designed to articulate with different academic majors, the requirements vary accordingly.

This list of courses compliments and supports the AGECA, B, and S information within the MCCCD college catalogs. The course matrix lists single courses and the general studies area(s) satisfied by each course. Course combinations are also listed with the combinations connected by ampersands. The general studies area(s) satisfied by the combined courses is listed at the end of the combination.
For example, GLG110 as a single course satisfies the Global [G] Awareness area. GLG110 & GLG111 combined satisfy Natural Sciences [SG] in the Core Area. Thus, if a student chooses to take the GLG110 & GLG111 combination, the student will satisfy [G] due to the successful completion of GLG110 and, in addition, will satisfy the [SG] general studies area by successfully completing the course combination of GLG110 and GLG111.

Please be aware of the following general studies policy that allows students to complete the Core and Awareness areas in the AGECS without exceeding 35 semester credits:

1. Courses can satisfy a Core area and one or two Awareness Areas simultaneously.
2. A course cannot be used to satisfy more than one Core Area requirement.
